EFIS-EJI Ruggero Ceppellini Advanced School of Immunology

La Scuola Superiore d'Immunologia Ruggero Ceppellini

Presents an Advanced EFIS-EJI Course on:

Tumour Immunology: from tissue microenvironment to immunotherapy

Directors: Catherine Sautès-Fridman, Wolf Fridman, and Ennio Carbone
Université Paris Descartes, Paris F-75006, France
Università Magna Grecia di Catanzaro 88100, Italy

Church Santi Marcellino e Festo
Università di Napoli Federico II
Largo S. Marcellino,
Napoli

Naples, 16 - 18 October, 2017

After decades of frustration the 'use' of the immune system to cure us from within has come to age with the spectacular success of new cancer immunotherapies. It could not be a better timing to discuss these themes in a former church given to the University in 1907.

The Registration Fee €550,00 includes: all course material, lunches, coffee breaks, welcome buffet.

To register and apply for fellowship please visit the website: www.ceppellini.it

For all information contact Organize secretariat : info@fuorirottaeventi.com tel +39 3494778948/+39 0835 1973821

A substantial numbers of partial or full EFIS EJS IUIS fellowships are available, with preference given to applicants from developing countries.

Local Organising Committee: Francesco Colucci, Francesca De Rosa, Silvia Fontana, Riccardo Zappacosta

Programme

Catherine Sautès-Fridman, Paris
Wolf Fridman, Paris
Vincenzo Bronte, Verona
Ennio Carbone, Stockholm
SoldanoFerrone, Boston
Zlatko Trajanoski, Graz
Alberto Mantovani, Milano
Hergen Spits, Amsterdam
Laurence Zitvogel, Paris
UgurSahin, Mainz
Federica Cavallo, Torino
Jim Allison, Houston
Rolf Kiessling, Stockholm
Michele Maio, Siena
Lorenzo Moretta, Roma
Pad Sharma, Houston

Tumour architecture, from response to escape
Tumour microenvironments in prognosis and therapy
Immunosuppressive monocytes in cancer
NK cells in cancer
T cells and MHC in cancer
Bioinformatics approaches
Tumour Macrophages
Innate Lymphoid Cells
Inflammation and microbiota in cancer progression and therapy
Individualized cancer RNA vaccines
Breast carcinoma vaccine in vivo models
Immune checkpoint inhibitors (TBC)
Immune check point inhibitors
Immune checkpoint inhibitors
NK cells in adoptive therapy for Acute Myeloid Leukaemia
Immune resistance in genitourinary cancers (TBC)

The Registration Fee **€550,00** includes: all course material, lunches, coffee breaks, welcome buffet.

To register and apply for fellowship please visit the website: www.ceppellini.it

The Course takes place in memory and in honour of the Ceppellini School Founder Professor Serafino Zappacosta.

The Course Program:

October 16

08.30-08.45 Registration
08.50-09.00 Silvia Fontana-Zappacosta (Naples, Italy) Welcome and the History of Ceppellini Advanced Immunology School
09.00-10.00 Keynote *Lecture TBA*
10.00-10.20 Coffee break
10.20-11.30 Catherine Sautès-Fridman(Paris , France) Course presentation and Lecture:
The tumor microenvironment architecture, from response to escape
11.30-12.30 Wolf Fridman (Paris , France): *Tumor microenvironments : prognostic and theranostic impacts*
12.30-13.30 Lunch with the speakers and Discussions
13.30-14.30 ZlatkoTrajanoski (Graz, Austria) *Bioinformatics approaches to study the TME*
14.30-15.30 Alberto Mantovani (Milan, Italy) *Macrophages 1 and 2 and tumorigenesis*
15.30-16.30 Vincenzo Bronte (Verona, Italy) *Immunosuppressive monocytes in cancer*
16.30-16.50 Coffee Break
16.50-19.00 Free time
19.00-21.00 Welcome party

October 17

08.30-9.30 Hergen Spits (Amsterdam, Netherland) *ILC and Cancer*
09.30-10.30 Ennio Carbone (Catanzaro, Italy) *NK cells and Cancer*
10.30-10.50 Coffee Break
10.50-11.50 SoldanoFerrone(Boston, MA,USA) *MHC-I and Tumors*
11.50-12.50 Laurence Zitvogel (Paris, France) *Inflammation and microbiota in cancer progression and therapy*
12.50-13.50 Lunch with the speakers and Discussions
13.50-14.50 UgurSahin (Mainz, Germany) *Tumor Vaccine RNA*
14.50-15.50 Federica Cavallo (Turin, Italy) *VaccineDNA in vivo studies*
15.50-16.10 Rolf Kiessling (Stockholm, Sweden) *Immune check point therapy and MSC*
16.10-18.00 Poster Session

October 18

08.30-09.30 Lorenzo Moretta (Rome, Italy) *NK cells in AML therapy*
9.30-10.30 Michele Maio (Siena, Italy) *The anti immune checkpoint therapy in solid tumors (NIBIT).*
10.30-12.00 Round table discussion : *Immunotherapy : what's next ?*
